

SAW YE HTET

DESKTOP SUPPORT ENGINEER

Singapore | +65 80299573 | sawyehtet.dev@gmail.com | www.sawyehtet.com

IT Diploma graduate with hands-on technical experience supporting desktop environments, hardware setups, and interactive systems at a maritime research centre. Methodical troubleshooter skilled in Windows and macOS diagnostics, active directory concepts, ticket management, and system configuration. Based in Singapore and available immediately.

AREA OF EXPERTISE

Desktop Support (L1/L2)	Windows & macOS Support	Active Directory Concept
Hardware & Peripherals	Incident Documentation	Network Fundamentals

KEY ACHIEVEMENTS

- **Technical Support Delivery:** Conducted 12 structured user support and testing sessions, compiling actionable reports and documentation.
- **Incident Management** bullet (diagnosing and resolving 40+ hardware/software issues) creates a stronger three-bullet section.
- **Software Development:** Built and shipped Tokey, an open source Python CLI tool backed by over 70 unit tests.

PROFESSIONAL EXPERIENCE

Research Assistant (Technical Support) Centre of Excellence in Maritime Safety	April 2025 - February 2026
• Provided technical support for workstations, VR headsets, and computer peripherals to maintain system uptime. • Diagnosed, reproduced, and documented 40+ hardware and software incidents, tracking them through to resolution. • Managed device setup, system configuration, and software deployment across live testing environments. • Authored actionable user feedback reports and technical documentation.	

EDUCATION

Diploma in Information Technology Singapore Polytechnic	March 2023 - May 2026
• Relevant Coursework: Computer Networking (TCP/IP, DNS, DHCP), Database Management (SQL), Linux Systems.
